Dealing with calls

Answering an Incoming Call

Lift the handset. To answer a call on another extension that is programmed to one of the phones 5 flex keys, press the flashing flex key before lifting the handset. You can also set flex keys for call pick-up and group call pick-up.

Making an External Call

Lift the handset then press a free flex key allocated to a line, or dial 9 to pick up an outside line. Once you have an outside line, dial your number.

Making an Internal Call

Lift the handset. Dial the extension Number or press the flex key assigned to the contact.

Rejecting a Call

Press the **DND** button when a call comes in.

Placing a call on hold

Press the **Hold** button. To reconnect the call, press the Green flashing flex key.

Parking a call

Parking a call

To park an active external call, press **Transfer**, dial the park code (i.e. #601 for Park 1), and hang up to return to idle. To retrieve a parked call, lift the handset and dial the park code.

Camp On (Call Waiting)

When dialling an extension that is engaged, the Camp On feature allows the station to be notified that there is a call waiting. Press your assigned flex key to initiate camp on.

Transferring a call

Transferring a Call

During an active call, press either the **Transfer** button or the **TRANS** soft key. Dial the extension number, external number or press the programmed flex key. Either speak to the recipient to announce the call, or simply hang up to complete the call transfer.

Returning to Caller from a Transfer

If you are unable to transfer the call, press the Green flashing flex key or the transfer key again to return to the caller.

Redialling a number

Call Redial

You can assign a flex key to be a redial key. This will redial the last called number.

Features

Do-Not-Disturb

Makes your extension unavailable
